Mojolnir Galaxy 30 Series 是由 Mojo Studio 团队独立研发, 整体漆面工艺源自于十二道精漆工艺, 高密度闪粉装饰, 极具细腻质感, 同时搭载全新 Mojo Trick 电路, 涵盖切单、并联等功能, 共十一种不同的音色搭配组合选择, 适用于大部分演奏场景。

Environmental Protection:

致力于更绿色的未来。我们使用环保材料, 以减少对环境的影响。We are committed to a greener future. We use eco-friendly materials to reduce our environmental footprint.

The Mojolnir TIPYSY 30/40 Series is independently developed by the Mojo Studio team. Its overall paint finish process is derived from twelve steps of exquisite lacquering. It features high-density glitter decoration, offering an extremely refined texture. Additionally, it is equipped with the new Mojo Trick circuit, which includes functions like coil-splitting and parallel wiring. This provides a total of eleven different tone combinations, making it suitable for most playing scenarios.
